Thank you for your recent order. In order to process your order and meet your delivery requirements, we need the following specifications for your core. Your core vendor can readily supply this information if you don't have it on record.

Note that this information will be used to size your mandrels (a mandrel has a usable diameter tolerance of -0.06" to +0.010", cores outside that tolerance may not cut).

Property	Size 1	Size 2	Size 3	Size 4	Size 5	Size 6
Material (i.e. fiber, HQ fiber, plastic)						
Internal Diameter (i.e. 3.020")						
ID Variance (i.e. -0.006", to 0.010")						
Wall Thickness (i.e. 0.500")						
Length (i.e. 121-1/2")						

Additionally, please submit 6 cores for our test run of your mandrel. We will spot check the samples for compliance to the specification and report any variance to you. **The mandrel will have already been completed to the diameter and tolerance input above.**

Thank you for your prompt attention to this request. If you have any questions, please contact me at 800-531-2002 or (920) 751-1555.
